

## Frequently Asked Questions (FAQ)

### 1. **What is the Bowlocity 21+ Fun League?**

It is a non-competitive bowling league that focuses on having fun and meeting new people. Many of us play kickball, softball, or other social sports during the Summer/Fall, but in the winter like to hang out, bowl, play laser tag, and maybe have a few drinks with friends.

### 2. **How does the bowling league work?**

Each bowling session is made up of 6 weeks. You will have an hour and half to bowl (usually 2-4 games) each week. Bowling is No-Tap scoring, meaning if you bowl a 9-count on your first ball it will count as a strike.

### 3. **How do I register for a bowling league?**

To register, fill out a form online [HERE](#), or stop into Bowlocity and speak with someone at Guest Services.

### 4. **I want to join, but I don't have a team.**

Lots of people join without having enough people for a team (you need 3-6 people for a team). One option is to join the "Free Agent" team, made up of other individuals. We recommend signing up as an individual and we'll see if we can find a spot to place you on a team looking for more bowlers! Same goes for two friends that want to join but don't have a third person.

### 5. **I want to sign-up, but it says that registration isn't open. What should I do?**

Our sessions run 6 weeks. Check out the league page to see if it says anything about when the session ends; a new session will probably open for registration around that time. Send us an email at [Info@Bowlocity.com](mailto:Info@Bowlocity.com) and let us know you're interested in the next session.

### 6. **I am a terrible bowler. Is that a problem?**

Absolutely not. Most of us aren't too skilled when it comes to bowling, but as long as you're fun and social, nobody cares! Shoe rental and equipment use is included in your registration fee!

### 7. **Am I guaranteed a spot? What happens if I don't find a team, or my team doesn't get enough people to join?**

Teams are guaranteed a spot when they have the necessary 3 members on their team. Teams who do not have a full six team members may be combined with other bowlers to make a full team when registration ends. I.e. two teams of three may be combined to make room for more teams. This will all depend on how many teams register.

### 8. **How does all this work?**

First, you sign up on the website as a team or individual. Eventually registration will end and the session starts. You'll meet your team at the bowling alley, get your shoes from Guest Services and look at the schedule there to see what lane you're on if you forgot. You then bowl for half an hour, and your captain will record your scores on the recap sheets. Then everyone can head to the bar to hang out, maybe have a few drinks, play a couple rounds of laser tag, play some arcade games, and socialize with fellow bowlers.

### 9. **How does scoring work?**

Teams can be 3-6 people, and everyone bowls. However, only the top 3 bowlers from any one game count for your team's score that week. You cannot combine scores from multiple games.

### 10. **How do the standings work?**

The most important standings, which determine the eventual team playoffs and championship team, are the overall team rankings. These are determined first by win-loss-tie ratio, then by team average.

### 11. **What should I do if I have questions?**

Email us at [Info@Bowlocity.com](mailto:Info@Bowlocity.com)!

### 12. **I just moved/got a new job/etc, but the season has already started. Can I get a refund?**

Give us a call or email us and we can work with you to figure something out!

### 13. **Do you support company/corporate teams?**

Absolutely!
